

JHOBET MICHAEL BEA

Automation & Technical Operations Specialist · App & Web Developer

Zone 5 Botao, Santa Barbara, Pangasinan, Philippines | +63 945 271 7489 | jhobet0227@gmail.com

PROFILE

Results-driven Automation & Technical Operations Specialist with hands-on experience building scalable workflow systems, integrating APIs, and developing web applications for digital agencies. Proficient in end-to-end automation using n8n and Airtable, and skilled in app and website development using Flutter, WordPress, and modern web technologies. Combines technical depth with strong operational leadership to deliver reliable, high-impact solutions across cross-functional teams.

PROFESSIONAL EXPERIENCE

CAL Agency

June 2024 – April 2026

Technical Manager · Operations Manager

- Architected and maintained n8n automation workflows and Airtable systems that reduced manual processing time across agency operations.
- Led technical project delivery for multiple digital teams, ensuring on-time output and high service quality.
- Developed and deployed internal web tools and automation dashboards to streamline team workflows.
- Managed API integrations and Google Apps Script solutions for cross-platform data syncing.
- Provided technical leadership, mentoring team members and setting engineering best practices.

Knowles Training Institute – Internship

Jan 2024 – May 2024

Content Development & Web Operations Lead

- Managed and optimized web operations, improving site performance and content delivery workflows.
- Built and enhanced content structures that boosted user engagement across the platform.
- Collaborated with designers, writers, and developers for seamless platform integration.
- Supported backend content pipelines and strengthened overall operational efficiency.
